MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The investment objective of the Fund is to generate current income while protecting capital and providing liquidity.

The portfolio sub-advisor in respect of this Fund, TD Asset Management Inc. ("TDAM") invests the assets of the Fund in primarily Canadian dollar denominated money market securities issued by Canadian and foreign issuers.

Risk

During the year, current low interest rates continued to be a factor for the Fund. The rate of interest or yield from many of the securities in the Fund was low because of the overall low interest rate environment. There were no significant changes to the level or type of risk you would expect from the Fund, over the course of the year, and it continues to have a low risk level. Refer to the Fund's simplified prospectus for a complete list of all risks.

Results of Operations from January 1, 2021 to December 31, 2021

Markets & Effect

In this low interest rate credit environment, TD Asset Management Inc. ("TDAM") continued to manage the portfolio with an emphasis on quality and liquidity and with a focus on providing stability of capital. As a result of historically low yields during the period, Bridgehouse Asset Managers ("Bridgehouse"), has continued to temporarily waive a portion of the management fees charged to the Fund in order to maintain a \$10 Net Asset Value per unit.

Performance

The Fund's Series A units trailed its benchmark, returning 0.0% versus a gain of 0.2% for the FTSE Canada 91 day T-Bill Index (the "Index").

The Fund returns are after the deduction of fees and expenses while the benchmark returns do not include any costs of investing. See the "Past Performance" section for the returns of the other series, which may vary because of differences in management fees and expenses or timing of series introduction.

Asset Mix

At December 31, 2021, the portfolio had 100% in cash & cash equivalents, unchanged from December 31, 2020.

The Manager confirms that the Fund did not borrow money during the period.

Flows

The Fund's Net Asset Value decreased to \$8.4 million at December 31, 2021, from \$9.9 million at December 31, 2020 due to net outflows.

Recent Developments

There are no known changes at this time to the strategic positioning of the Fund, the manager, or portfolio sub-advisor.

As noted in the simplified prospectus, this Fund is subject to large transaction risk because it has security holders who individually own more than 10% of the Fund. In order to reduce the impact of this risk to security holders, Bridgehouse asks, but does not require, large investors to provide notice when significant redemptions are being contemplated.

The invasion of Ukraine by Russia on February 24, 2022 has resulted in western economic sanctions being imposed on Russia, notably barring Russian banks from the SWIFT financial messaging system, a key piece of banking infrastructure. In response to sanctions, Russian markets have been closed to all foreign investors. This has caused material volatility in Russian financial markets and impacted liquidity, market access and reliability of security prices. In addition, export embargoes may lead to increased volatility in commodity prices and global supply chain disruptions. It is uncertain how long the conflict, economic sanctions and market instability will continue and whether they will escalate further. The Fund manager and portfolio sub-advisor(s) continue to actively monitor the situation for any impacts on the Fund's existing as well as potential new holdings.

Effective on or before April 22, 2022, Bridgehouse will no longer pay trailing commissions to dealers that do not make a suitability determination, such as order-execution-only (“OEO”) dealers, in accordance with the Canadian Securities Administrators’ decision to end the payment of trailing commissions to OEO dealers that comes into effect on June 1, 2022. Accounts held at OEO dealers will only be permitted to purchase or hold securities of Series F of the Fund, which does not pay a trailing commission.

On March 16, 2022, Bridgehouse announced that effective at the close of business on or about April 22, 2022, all Series A units of the Fund held in accounts at OEO dealers will be switched into Series F at no cost to the unitholder and without a disposition for tax purposes.

Effective June 1, 2022, Bridgehouse will no longer offer purchases into the deferred sales charge (“DSC”) series, including the low load series, of the Fund in accordance with the Canadian Securities Administrators’ decision to ban all DSCs in Canada. Existing DSC redemption schedules for sales made prior to June 1, 2022 will be permitted to run their course.

The outbreak of the novel coronavirus, first detected in December 2019, rapidly became a pandemic and resulted in disruptions to the economies of many nations, individual companies and the markets in general. This created closed borders, quarantines, supply chain disruptions and general anxiety, which negatively impacted global markets in an unforeseeable manner. The impact of the novel coronavirus and other such future infectious diseases in certain regions or countries may be greater or less due to the nature or level of their public health responses or due to other factors. Health crises caused by the coronavirus outbreak or future infectious diseases may exacerbate other pre-existing political, social and economic risks in certain countries. The impact of such health crises may be quick, severe and of unknowable duration. This pandemic and other epidemics and pandemics that may arise in the future could result in continued volatility in the financial markets and lead to increased levels of Fund redemptions, which could have a negative impact on the Funds and could adversely affect a Fund’s performance.

Related Party Transactions

Manager and Portfolio Advisor

The Fund is managed and advised by Brandes Investment Partners & Co., operating as Bridgehouse Asset Managers (“Bridgehouse”) which provides (or arranges for) investment management, distribution, marketing and promotion of the Fund. Bridgehouse receives a monthly management fee based on the daily average net assets of each series of the Fund. In addition, Bridgehouse is entitled to be reimbursed by the Fund for certain operating expenses.

Bridgehouse has retained TD Asset Management Inc. (“TDAM”) as the portfolio sub-advisor to the Fund. Bridgehouse pays TDAM an investment management fee to provide the Fund with investment management services.

Forward-Looking Statements

This document may contain forward-looking statements relating to anticipated future events, results, performance, decisions, circumstances, opportunities, risks or other matters. Forward-looking statements are statements that are predictive in nature, depend upon or refer to future events or conditions, or that include words such as “may”, “will”, “should”, “could”, “expect”, “anticipate”, “intend”, “plan”, “believe”, or “estimate” or other similar expressions. These statements require us to make assumptions and are subject to inherent risks and uncertainties. Our predictions and other forward-looking statements may not prove to be accurate, or a number of factors could cause actual events, results, performance, etc. to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. These factors could include, among others, market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the risks detailed from time to time in the Fund’s simplified prospectus. Forward-looking statements are not guarantees of future performance. For these reasons, it is important that readers do not place undue reliance on our forward-looking statements and should be aware that the Fund may not update any forward-looking statements whether as a result of new information, future events or otherwise.

- The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's Net Asset Value and is provided as at December 31 of the years shown.
- The management expense ratio ("MER") is calculated as the total management fees and operating expenses paid by each series of the Fund, including GST/HST and interest and excluding commissions and other portfolio transaction costs, and is expressed as a percentage of the average daily Net Asset Value of each series of the Fund on an annualized basis. Any management fee distributions paid by a series of the fund that effectively reduced management fees payable by some unitholders are not deducted from expenses to determine the overall MER of that series. The Manager, at its sole discretion, waives management fees or absorbs expenses. Such waivers and absorptions can be terminated at any time. The MERs of the Fund are shown both with and without the waiver and absorptions.
- Portfolio turnover rate is calculated at the Fund level based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short term notes and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value of the Fund. The trading expense ratio is calculated at the Fund level and applies to all series of the Fund.

MANAGEMENT FEES

Bridgehouse Asset Managers, the Manager, provides or arranges for investment management, distribution, marketing and promotion of the Fund. In consideration for the services provided, Bridgehouse Asset Managers receives a monthly management fee based on the daily average Net Asset Value of Series A and Series F.

For the year ended December 31, 2021, the Fund paid Bridgehouse Asset Managers management fees of \$121,281. Bridgehouse uses these management fees to pay for commission payments to registered brokers and dealers and general investment management expenses. The breakdown (commission payments / investment management, administration and other) as a proportion of the management fee for each Series are:

- Series A (17% / 83%)
- Series F (0% / 100%)

Commission payments represent cash commissions paid by Bridgehouse Asset Managers to registered brokers and dealers during the period and includes upfront deferred sales charge and trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by the Bridgehouse Asset Managers during the period. For new Funds or Series the amount presented may not be indicative of longer term operating periods.

PAST PERFORMANCE

This section shows the historical performance for each series of the Fund for the periods ended December 31. Historical performance is based on the change in Net Asset Value per unit, assuming reinvestment of all distributions. Management fees and operating expenses have been taken into account before calculating performance. Historical performance does not take into account the potential impact on returns of purchases, redemptions, distribution fees or other optional charges or income taxes payable by an investor. Keep in mind that past performance does not necessarily indicate how the Fund will perform in the future.

Year-by-Year Returns (%)

The bar chart shows the Fund's annual performance for each of the years shown. The bar chart shows how the performance of each series of the Fund has changed from year to year. It illustrates in percentage terms how much an investment in each series of the Fund made on January 1 of each year, or on the inception dates, would have grown or decreased by the last day of each financial year.

Annual Compound Returns (%)

The table shows the historical annual compound total return for each series of the Fund as compared to the benchmarks listed below. The returns are for periods ended December 31, 2021. For a discussion of the relative performance of the Fund as compared to the index, please refer to the “Results of Operations” section in the “Management Discussion of Fund Performance”.
