The annual financial statements are in a separate booklet. You may obtain a copy of the annual financial statements at your request, and at no cost, by calling toll-free 1.888.861.9998, by writing to us at Bridgehouse Asset Managers, 6 Adelaide Street East, Suite 900, Toronto, ON, M5C 1H6, or by visiting our website: www.bridgehousecanada.com or the SEDAR+ website: www.sedarplus.ca.

You may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure relating to the Fund.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Nuveen Global Green Bond Fund (the "Fund") is managed and advised by Brandes Investments Partners & Co., operating as Bridgehouse Asset Managers ("Bridgehouse" or the "Manager"). Bridgehouse has retained Nuveen Asset Management, LLC ("Nuveen") as the portfolio sub-advisor in respect of the Fund.

Investment Objective and Strategies

Our objective for this Fund is to seek total return, primarily through current income, by investing primarily in both labelled green bonds and other fixed income securities that Nuveen expects will have a positive impact on the environment. The Fund can invest in fixed income securities from issuers anywhere in the world and, to a lesser extent, in other types of securities.

The portfolio sub-advisor in respect of this Fund, Nuveen employs a team-based approach that uses a blend of qualitative and quantitative techniques. Nuveen relies on specialized teams with deep sector expertise for idea generation and portfolio construction across all major asset classes globally.

The Fund seeks to create a portfolio of bonds that direct capital to projects and initiatives that seek to accelerate the transition from fossil fuels to renewable energy sources, reduce greenhouse gas emissions, and help position companies to achieve various global climate compact goals.

The Fund offers both a Hedged and Unhedged Series of units. The Hedged Series is designed for investors who might be uncomfortable with fluctuations in the U.S. dollar. The Unhedged Series is for investors who wish to be exposed to fluctuations in the U.S. dollar.

Risk

As an investor in this Fund, you should be prepared for short-term performance fluctuations, and be a patient, long-term holder.

This Fund also carries a currency risk for investors in the Unhedged Series.

There were no significant changes to the level or type of risk you would expect from the Fund over the course of the year. It continues to have a low risk level. Refer to the Fund's simplified prospectus for a complete list of all risks.

Results of Operations from January 1, 2023 to December 31, 2023

Markets & Effect

The U.S. Federal Reserve's ("Fed") higher-for-longer narrative and uncertainty surrounding more Treasury supply drove rates sharply higher through late October before a string of lower inflation readings led investors to begin anticipating a soft-landing scenario for the U.S. economy. In December, Fed policymakers surprised the market with a dovish pivot indicating three potential rate cuts in 2024. The market aggressively priced in even more cuts for the coming year, fueling a rally in rates and spreads that continued through year-end. The rally boosted the return of the broad fixed income market into positive territory for the quarter and year, following two years of declines.

Nuveen believes fixed income markets overall appear attractive as they see inflation easing across developed markets, and believes the Fed and European Central Bank have finished their rate hiking cycles. Nuveen doesn't expect near-term rate cuts, but anticipates bond yields should move modestly lower throughout 2024. Fixed income markets should perform well in such an environment.

A few variables certainly push against this base case. If U.S. economic growth remains healthy, the Fed may not need to cut rates at all in 2024, and Treasuries accordingly would not rally. Persistent and outsized fiscal deficits should offset upward pressure on rates. Non-U.S. demand for U.S. fixed income remains pressured by high currency hedging costs. Nuveen is cognizant of these risks, but increasingly believes that even if interest rates remain elevated, current yields offer compelling income.

In 2023, Nuveen was active from a bottom-up perspective, selling corporate and municipal credit instruments with richer valuations and tighter spreads, and reinvesting in higher quality securities that still offered what Nuveen

believes to be attractive yields, including supranationals and asset backed securities (ABS). The risk-on tone and strong year-end rally provided Nuveen with opportunities to reduce spread duration during a period of exuberance and market liquidity.

Performance

Performance for the Fund cannot be shown until 12 months from the Inception date has passed.

The Fund returns are after the deduction of fees and expenses while the benchmark returns do not include any costs of investing. See the “Past Performance” section for the returns of the other series, which may vary because of differences in management fees and expenses or timing of series introduction.

Asset Mix

At December 31, 2023, the Fund consisted of 26.6% in U.S. Dollar denominated government fixed income securities, 68.8% in U.S. Dollar denominated corporate fixed income securities, and approximately 4.6% in cash and other net assets.

The securities holdings in the Fund had an average credit rating of A1 by Moody’s at December 31, 2023. The Fund’s duration was 5.28 years at December 31, 2023.

The Manager confirms that the Fund did not borrow money during the period.

Flows & Fees

The Fund’s Net Asset Value was \$49.9 million at December 31, 2023.

For Series A units, the annualized management expense ratio (“MER”) at December 31, 2023 is 1.41%. The annualized MER for the Hedged series is also 1.41% at December 31, 2023.

Recent Developments

There are no known changes at this time to the strategic positioning of the Fund, the manager, or the portfolio sub-advisor.

1. The financial information presented in the Net Assets per Unit table is derived from the Fund's audited financial statements.
2. Net Assets and distributions are per Unit of a series are based on the actual number of units outstanding for that series at the relevant time. The Increase (Decrease) from Operations per Unit of a series is based on the weighted average number of units outstanding for that series during the financial period.
3. Distributions per Unit of a series are based on the number of units outstanding for the series on the record dates for the distributions. Distributions were paid in cash/reinvested in additional units of the Fund or both.

Ratios and Supplemental Data

		Net asset value (\$000) (note 4)	Number of units outstanding (000) (note 4)	Management expense ratio (MER) (%) (note 5)	MER before waivers or absorption (%) (note 5)	Portfolio turnover rate (%) (note 6)	Trading expense ratio (%) (note 7)	Net asset value per unit (\$)
Series A	2023	764	76	1.41	1.90	79.19	-	10.10
Series F	2023	356	35	0.85	2.82	-	-	10.09
Series I	2023	41,212	4,089	0.12	0.12	-	-	10.08
Series AH	2023	386	38	1.41	1.41	-	-	10.26
Series FH	2023	7,213	701	0.85	1.08	-	-	10.28
Series IH	2023	-	-	0.00	21.32	-	-	10.25

- The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's Net Asset Value and is provided as at December 31 of the years shown.
- The management expense ratio ("MER") is calculated as the total management fees and operating expenses paid by each series of the Fund, including GST/HST and interest and excluding commissions and other portfolio transaction costs, and is expressed as a percentage of the average daily Net Asset Value of each series of the Fund on an annualized basis. Any management fee distributions paid by a series of the fund that effectively reduced management fees payable by some unitholders are not deducted from expenses to determine the overall MER of that series. The Manager, at its sole discretion, waives management fees or absorbs expenses. Such waivers and absorptions can be terminated at any time. The MERs of the Fund are shown both with and without the waiver and absorptions.
- Portfolio turnover rate is calculated at the Fund level based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short term notes and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value of the Fund. The trading expense ratio is calculated at the Fund level and applies to all series of the Fund.

MANAGEMENT FEES

Bridgehouse Asset Managers, the Manager, provides or arranges for investment management, distribution, marketing and promotion of the Fund. In consideration for the services provided, Bridgehouse Asset Managers receives a monthly management fee based on the daily average Net Asset Value of Series A, Series F, Series AH and Series FH. Management fees for Series I and Series IH are negotiated and paid directly by the unitholders of Series I and Series IH, not by the Fund.

For the year ended December 31, 2023, the Fund paid Bridgehouse Asset Managers management fees of \$4,031. Bridgehouse uses these management fees to pay for commission payments to registered brokers and dealers and general investment management expenses. The breakdown (commission payments / investment management, administration and other) as a proportion of the management fee for each Series are:

- Series A, AH (89% / 11%)
- Series F, FH (0% / 100%)
- Series I, IH (0% / 100%)

Commission payments represent cash commissions paid by Bridgehouse Asset Managers to registered brokers and dealers during the period and includes trailing commissions. This amount may, in certain circumstances, exceed 100% of the fees earned by the Bridgehouse Asset Managers during the period. For new Funds or Series the amount presented may not be indicative of longer term operating periods.

PAST PERFORMANCE

This section shows the historical performance for each series of the Fund for the periods ended December 31. Historical performance is based on the change in Net Asset Value per unit, assuming reinvestment of all distributions. Management fees and operating expenses have been taken into account before calculating performance, except in the case of Series I units where the management fee is calculated outside of the Fund. Historical performance does not take into account the potential impact on returns of purchases, redemptions, distribution fees or other optional charges or income taxes payable by an investor. Keep in mind that past performance does not necessarily indicate how the Fund will perform in the future.

Year-by-Year Returns (%)

The bar chart shows the Fund's annual performance for each of the years shown. The bar chart shows how the performance of each series of the Fund has changed from year to year. It illustrates in percentage terms how much an investment in each series of the Fund made on January 1 of each year, or on the inception dates, would have grown or decreased by the last day of each financial year.

Since the Fund is less than one year old, no performance information is presented.

Annual Compound Returns (%)

The table shows the historical annual compound total return for each series of the Fund as compared to the benchmarks listed below. The returns are for periods ended December 31, 2023. For a discussion of the relative performance of the Fund as compared to the index, please refer to the “Results of Operations” section in the “Management Discussion of Fund Performance”.

Since the Fund is less than one year old, no performance information is presented.
